The Martian Andy Weir 2014-02-11 Nominated as one of America’s best-loved novels by PBS’s The Great American Read Six days ago, astronaut Mark Watney became one of the first people to walk on Mars. Now, he's sure he'll be the first person to die there. After a dust storm nearly kills him and forces his crew to evacuate while thinking him dead, Mark finds himself stranded and completely alone with no way to even signal Earth that he’s alive—and even if he could get word out, his supplies would be gone long before a rescue could arrive. Chances are, though, he won't have time to starve to death. The damaged machinery, unforgiving environment, or plain-old "human error" are much more likely to kill him first. But Mark isn't ready to give up yet. Drawing on his ingenuity, his engineering skills—and a relentless, dogged refusal to quit—he steadfastly confronts one seemingly insurmountable obstacle after the next. Will his resourcefulness be enough to overcome the impossible odds against him?

Steven Universe: End of an Era Chris McDonnell 2020-10-13 The official sequel to the bestselling Steven Universe: Art & Origins Steven Universe: End of an Era is the eagerly anticipated follow-up to the bestselling behind-the-scenes companion book Steven Universe: Art & Origins. Showcasing new concept art, storyboards, background paintings, and exclusive interviews, End of an Era will update the history of the Emmy Award-winning series to cover season four through to the critically acclaimed i=7nale, “Change Your Mind,” and beyond. Fans can expect a special focus on creator and showrunner Rebecca Sugar’s elaborate process for creating the lore for the series, as she and the crew reveal how they discovered and developed the complete story arc for each character, as well as how they were able to design a show that so refreshingly captures and celebrates the experience of childhood. Steven Universe: End of an Era is a heartfelt send-off to one of the most progressive, imaginative, and beloved animated series of our time.

With No Strings Attached Steven H Bell D Min 2013-12-25 Marriage for many women is simply miserable. And if that's not bad enough, what makes this even worse is that oftentimes it is we men who inject the misery into the marriage (like injecting our favorite marinade into the Thanksgiving turkey). We judge our wives, criticize them, gripe, complain, and fail to appreciate them. Is this behavior helpful? Is it effective? Is it Christ-like? No (and no wonder why the divorce rate among professing Christians is not much different from those who do not follow Jesus)! To tell you the truth, God's plan for the way you treat your wife looks very different.Throughout With No Strings Attached: 28 Days of Blessing Your Wife, Dr. Steven Bell details twenty-eight unique ways for you to love your wife unconditionally. Each approach to blessing your wife is simple, yet immensely challenging (and well worth your time). The days of the “status quo” husband are quickly coming to an end, and our wives need more from us than we’ve been giving them. Grounded in scripture and a number of other helpful resources, With No Strings Attached: 28 Days of Blessing Your Wife provides a clear blueprint of how to take your marriage from miserable to magnificent.

With Steven, Connie, and the Crystal Gems, Peridot and Lapis become true thespians and work together to find a solution when parts of the story remind Lapis of her time with Jasper and jeopardize the play’s production. Join writer Nicole Mannino (This is Not Fiction) and artist Lisa Sterle (Long Lost) in this newest Steven Universe story that will prove there’s no stopping Steven and the Crystal Gems when the show must go on!

The Brain That Changes Itself Norman Doidge 2007-03-15 “Fascinating. Doidge’s book is a remarkable and hopeful portrait of the endless adaptability of the human brain.”—Oliver Sacks, MD, author of The Man Who Mistook His Wife for a Hat What is neuroplasticity? Is it possible to change your brain? Norman Doidge’s inspiring guide to the new brain science explains all of this and more An astonishing new science called neuroplasticity is overthrowing the centuries-old notion that the human brain is immutable, and proving that it is, in fact, possible to change your brain. Psychoanalyst, Norman Doidge, M.D., traveled the country to meet both the brilliant scientists championing neuroplasticity, its healing powers, and the people whose lives they’ve transformed—people whose mental limitations, brain damage or brain trauma were seen as unalterable. We see a woman born with half a brain that rewired itself to work as a whole, blind people who learn to see, learning disorders cured, IQs raised, aging brains rejuvenated, stroke patients learning to speak, children with cerebral palsy learning to move with more grace, depression and anxiety disorders successfully treated, and lifelong character traits changed. Using these marvelous stories to probe mysteries of the body, emotion, love, sex, culture, and education, Dr. Doidge has written an immensely moving, inspiring book that will permanently alter the way we look at our brains, human nature, and human potential.

A Life on Our Planet Sir David Attenborough 2020-10-06 *Goodreads Choice Award Winner for Best Science & Technology Book of the Year* In this scientifically informed account of the changes occurring in the world over the last century, award-winning broadcaster and natural historian shares a lifetime of wisdom and a hopeful vision for the future. See the world. Then make it better. I am 93. I've had an extraordinary life. It's only now that I appreciate how extraordinary. As a young man, I felt I was out there in the wild, experiencing the untouched natural world - but it was an illusion. The tragedy of our time has been happening all around us, barely noticeable from day to day -- the loss of our planet's wild places, its biodiversity. I have been witness to this decline. A Life on Our Planet is my witness statement, and my vision for the future. It is the story of how we came to make this, our greatest mistake -- and how, if we act now, we can yet put it right. We have one final chance to create the perfect home for ourselves and restore the wonderful world we inherited. All we need is the will to do so.

The Running Man Stephen King 2016-03-08 "With an Introduction by the author, 'The Importance of Being Bachman'."

Killing Kennedy Steven Hager 2017-01-22 Despite an avalanche of disinfo being dumped by the major media over the decades, the assassination of JFK was finally unraveled. A renegade CIA station working with a Sicilian secret society orchestrated the hit, but their participation would never have been so massively covered-up unless they were working for elements higher up the chain-of-command. Whether you are new to this case, or a longtime researcher, you will find these penetrating essays both entertaining and enlightening.

Pug Davis Rebecca Sugar 2019-09-17 In this early comic work of Rebecca Sugar, creator of the Emmy nominated Steven Universe, she shows the development of a budding young artist in an entertaining, thoughtful read with a lot of heart. All of the elements that Rebecca has come to be known for. Pug Davis is a curmudgeonly astronaut in the vein of Buck Rodgers via John Wayne. He also happens to have the head of a Pug. Reluctantly teamed with his sensitive partner, Blouse, he fights aliens in space so we don't have to fight them here. Presented for the first time in full color.

Keep Beach City Weird Ben Levin 2017-04-18 Do you think you know the truth about what happens in Beach City? THINK AGAIN! Fans of Steven Universe know that Steven and the Crystal Gems are behind most of the strange occurrences that happen in their hometown of Beach City. But Ronaldo Fryman, the town’s resident blogger and conspiracy theorist, has some other ideas. This book, created by show writers Ben Levin and Matt Burnett, is a companion to Ronaldo’s blog of the same name, and includes his favorite theories and collected evidence. Is Ronaldo a raving, delusional madman or a brilliant, misunderstood visionary (or a little bit of both)? You be the judge!

PISA Take the Test Sample Questions from OECD’s PISA Assessments OECD 2009-02-02 This book presents all the publicly available questions from the PISA surveys. Some of these questions were used in the PISA 2000, 2003 and 2006 surveys and others were used in developing and trying out the assessment.

Speculative Everything Anthony Dunne 2013-12-06 How to use design as a tool to create not only things but ideas, to speculate about possible futures. Today designers often focus on making technology easy to use, sexy, and consumable. In *Speculative Everything*, Anthony Dunne and Fiona Raby propose a kind of design that is used as a tool to create not only things but ideas. For them, design is a means of speculating about how things could be—to imagine possible futures. This is not the usual sort of predicting or forecasting, spotting trends and extrapolating; these kinds of predictions have been proven wrong, again and again. Instead, Dunne and Raby pose “what if” questions that are intended to open debate and discussion about the kind of future people want (and do not want). *Speculative Everything* offers a tour through an emerging cultural landscape of design ideas, ideals, and approaches. Dunne and Raby cite examples from their own design and teaching and from other projects from fine art, design, architecture, cinema, and photography. They also draw on futurology, political theory, the philosophy of technology, and literary fiction. They show us, for example, ideas for a solar kitchen restaurant; a flypaper robotic clock; a menstruation machine; a cloud-seeding truck; a phantom-limb sensation recorder; and devices for food foraging that use the tools of synthetic biology. Dunne and Raby contend that if we speculate more—about everything—reality will become more malleable. The ideas freed by speculative design increase the odds of achieving desirable futures.

Just Keep Rowing Katie Spatz 2015-09-01 Just Keep Rowing is a self-empowerment book written by Katie and co-author, Mark Bowles, with 70 life lessons that parallel the number of days Katie spent alone at sea rowing across the Atlantic Ocean. The book is a personal conversation between you and Katie. During her journey she learned many vital life lessons from the Atlantic. As she found out, an ocean is a great teacher of the meaning of life. Katie became its student, sometimes reluctantly but often enthusiastically, and she wants to communicate these lessons because she believes they can be valuable for everyone. From students to business executives, and to people just wanting to find new ways to live life to the fullest, these lessons from the Atlantic will help you see the world from a new perspective.

Live from Beach City! Cartoon Network Cartoon Network Books 2016-02-09 All the hits from Season 1 of Steven Universe! Steven Universe may have inherited his magical

abilities from his mother, Rose Quartz, but there's no doubt that his love of music comes from his father, Greg Universe. Solitary Giora Romm 2014-06-04 “Fighter pilots tell the greatest stories and the great ones tell the best stories of all...” –PAT CONROY, bestselling author of The Great Santini and The Death of Santini “This book is not only among the finest war writing ever but, like Viktor Frankl’s Man’s Search for Meaning, Solitary sits alongside the most profound reflections on the resilience and capacity of the human soul.” –STEVEN PRESSFIELD, bestselling author of The Lion’s Gate and The War of Art “Solitary is a gutsy story of one man’s survival, endurance, and strength of will.” –LARRY ALEXANDER, bestselling co-author of A Higher Call “I anxiously await the day my own sons are old enough to read it.” –RICH COHEN, bestselling author of Tough Jews “You will tear through this book...” –RYAN HOLLIDAY, bestselling author of The Obstacle is the Way “It grabs you immediately, and doesn’t let go until you’re finished.” –TUCKER MAX, bestselling author of I Hope They Serve Beer in Hell “A magnificent triumph of the human spirit...I was captivated from the first page to the last.” –SEAN PARNELL, bestselling author of Outlaw Platoon Giora Romm was the Israeli Air Force’s first fighter ace. As a twenty-two-year-old lieutenant he shot down five MiGs during the Six Day War of 1967. Fourteen months later over the Nile Delta, an Egyptian missile exploded beneath the tail of his Mirage IIIC. Within moments Romm found himself hanging by the straps of his parachute, with a broken arm and a leg shattered in a dozen places, looking down from 10,000 feet. Streams of farmers and field workers converged below onto the spot toward which his chute was descending, with the intention, he was certain, of hacking him to death as soon as his feet touched the earth. No other Israeli pilot had survived capture in Egypt or in any other Arab state. Solitary is Romm’s story of his imprisonment, torture, interrogation, release, and return to service. Solitary is not a “war book.” It’s not a tale of heroism, though if anyone ever qualified for that distinction, it is this story’s author. Solitary is not even, in its deepest parts, about captivity or imprisonment. Solitary is about Romm’s inner war. It’s the story, in his phrase, “of a fall from a great height,” not only literally but metaphorically. Romm could not tell his captors the truth about who he was or what he had done. He had to invent an entire fictional biography and keep it straight in his head through months of beatings and interrogations, all the while being held in solitary confinement with his body sheathed from chest to toe in a plaster cast. Solitary is not a grim book. It’s full of wry humor, keen self-observations and revelations. An ordeal such as Romm endured is a sojourn in hell, but it is also a passage. Romm fell, and he came back. Solitary is his indelible account of confronting, as few of us ever will, his own fears and limitations, and discovering, ultimately, his capacity to survive and to prevail. –From the Introduction by Steven Pressfield

The Office of Historical Corrections Danielle Evans 2020-11-10 WINNER OF THE 2021 JOYCE CAROL OATES PRIZE NAMED A BEST BOOK OF 2020 BY O MAGAZINE, THE NEW YORKER, THE WASHINGTON POST, REAL SIMPLE, THE GUARDIAN, AND MORE FINALIST FOR: THE STORY PRIZE, THE L.A. TIMES BOOK PRIZE, THE ASPEN WORDS LITERARY PRIZE, THE CHAUTAUQUA PRIZE “Sublime short stories of race, grief, and belonging . . . an extraordinary new collection . . .” –The New Yorker “Evans’s new stories present rich plots reflecting on race relations, grief, and love . . .” –The New York Times Book Review, Editor’s Choice “Danielle Evans demonstrates, once again, that she is the finest short story writer working today.” –Roxane Gay, The New York Times–bestselling author of Difficult Women and Bad Feminist The award-winning author of Before You Suffocate Your Own Fool Self brings her signature voice and insight to the subjects of race, grief, apology, and American history. Danielle Evans is widely acclaimed for her blisteringly smart voice and X-ray insights into complex human relationships. With The Office of Historical Corrections, Evans zooms in on particular moments and relationships in her characters’ lives in a way that allows them to speak to larger issues of race, culture, and history. She introduces us to Black and multiracial characters who are experiencing the universal confusions of lust and love, and getting walloped by grief—all while exploring how history haunts us, personally and collectively. Ultimately, she provokes us to think about the truths of American history—about who gets to tell them, and the cost of setting the record straight. In “Boys Go to Jupiter,” a white college student tries to reinvent herself after a photo of her in a Confederate-flag bikini goes viral. In “Richard of York Gave Battle in Vain,” a photojournalist is forced to confront her own losses while attending an old friend’s unexpectedly dramatic wedding. And in the eye-opening title novella, a black scholar from Washington, DC, is drawn into a complex historical mystery that spans generations and puts her job, her love life, and her oldest friendship at risk.

Why We’re Polarized Ezra Klein 2020-01-28 One of Bill Gates's "5 books to read this summer," this New York Times and Wall Street Journal bestseller shows us that America’s political system isn’t broken. The truth is scarier: it’s working exactly as designed. In this “superbly researched” (The Washington Post) and timely book, journalist Ezra Klein reveals how that system is polarizing us—and how we are polarizing it—with disastrous results. “The American political system—which includes everyone from voters to journalists to the president—is full of rational actors making rational decisions given the incentives they face,” writes political analyst Ezra Klein. “We are a collection of functional parts whose efforts combine into a dysfunctional whole.” “A thoughtful, clear and persuasive analysis” (The New York Times Book Review), “Why We’re Polarized” reveals the structural and psychological forces behind America’s descent into division and dysfunction. Neither a polemic nor a lament, this book offers a clear framework for understanding everything from Trump’s rise to the Democratic Party’s leftward shift to the politicization of everyday culture. America is polarized, first and foremost, by identity. Everyone engaged in American politics is engaged, at some level, in identity politics. Over the past fifty years in America, our partisan identities have merged with our racial, religious, geographic, ideological, and cultural identities. These merged identities have attained a weight that is breaking much in our politics and tearing at the bonds that hold this country together. Klein shows how and why American politics polarized around identity in the 20th century, and what that polarization did to the way we see the world and one another. And he traces the feedback loops between polarized political identities and polarized political institutions that are driving our system toward crisis. “Well worth reading” (New York magazine), this is an “eye-opening” (O, The Oprah Magazine) book that will change how you look at politics—and perhaps at yourself.

Representation in Steven Universe John R. Ziegler 2020-01-09 This book assembles ten scholarly examinations of the politics of representation in the groundbreaking animated children’s television series Steven Universe. These analyses address a range of representational sites and subjects, including queerness, race, fandom, colonialism, and the environment, and provide an accessible foundation for further scholarship. The introduction contextualizes Steven Universe in the children’s science-fiction and anime traditions and discusses the series’ crucial mechanic of fusion. Subsequent chapters probe the fandom’s expressions of queer identity, approach the series’ queer force through the political potential of the animated body, consider the unequal privilege of different female characters, and trace the influence of anime director Kunihiko Ikuhara. Further chapters argue that Ronaldo allows satire of multiple media forms, focus on Onion as a surrealist trickster, and contemplate cross-species hybridity and consent. The final chapters concentrate on background art in connection with ecological and geological narratives, adopt a decolonial perspective on the Gems’ legacy, and interrogate how the tension between personal and cultural narratives constantly recreates memory.

Buck Rogers in the 25th Century: A TV Companion (Hardback) Patrick Jankiewicz 2015-11-30 This is the HARDBACK version. Buck Rogers in the 25th Century (1979-1981) premiered on American television in September 1979. The story followed a twentieth century astronaut revived after 500 years of suspended animation to become Earth's greatest hero. Created by Glen A. Larson and Leslie Stevens, the new series starred Gil Gerard, Erin Gray, and Felix Silla. Gerard looked to the past to prepare for his future production. As Executive Producer of another science fiction series, Battlestar Galactica (1978-1979), the early cancellation of the failed series left him with a quasar of props, costumes, sets, special effects film footage, and even a rejected model spacecraft designed by Ralph McQuarrie. He hit on the idea of recycling the artifacts into a less showy series that premiered to the delight of audiences. Viewers thrilled to a seemingly endless parade of notable guest stars, such as Henry Silva, Joseph Wiseman, Jack Palance, Roddy McDowall, John P. Ryan, Richard Lynch, Cesar Romero, Frank Gorshin, Julie Newmar, Jamie Lee Curtis, Vera Miles, Sam Jaffe, William Smith, Sid Haig, Jerry Orbach, Richard Moll, Ray Walston, Gary Coleman, Amanda Wyss, and Mary Woronov.
